WORK EXPERIENCE

Umain

Full-stack Developer

February 2025 - Present

Building and develop digital solutions for clients, working on a variety of projects using **Next.js, React, TypeScript, and Vercel**. Continuously explore and integrate emerging technologies to create scalable and innovative solutions.

Norwegian Red Cross

Fullstack Developer

December 2021 - January 2025

Develop, maintain, and scale **Nyss**, the Norwegian Red Cross' in-house software platform, using **React, .NET, Azure (Functions, IoT Hub, Analytics, Microservices, DevOps), SQL, and Entity Framework**. Provide technical support and bug fixes for partner national societies while designing and implementing new features to improve scalability and enable efficient deployments in new countries. Gained **project management experience** by facilitating pro bono contributions from consulting firms assisting with the platform's development.

Finway Tech

Front-end Developer

March 2021 - May 2021

Developed and maintained software for synchronizing orders and invoices between suppliers and webstore administrators using **HTML, TailwindCSS, SASS, JavaScript, Svelte, React, and Swagger API**. Implemented new functionalities in the admin panel, enhanced the landing page to be fully responsive, and created custom-styled components. Integrated APIs to improve platform functionality and user experience.

EDUCATION

Universiteit Leiden

Bachelor of Science / International Relations & Organisations

August 2018 - December 2020

- Learned to code in my free time
- Completed a 10-week training in **public speaking**, formal resolution writing, and lobbying. Represented Indonesia in the WHO at **Harvard Model United Nations (HNMUN)**, debating global human rights and disability integration. Nominated as one of the best public speakers in a committee of 200+ participants.

PROJECTS

Meal Planner [↗](#)

Fall 2024

Made a Next.js application to help organise my meals repertoire and ideas for new meals.

Events Newsletter [↗](#)

Fall 2024

Created a newsletter subscription for events in Oslo, based on the API of a local event guide

Personal Portfolio [↗](#)

Fall 2024

Simple website created to display my skills, hobbies and personal projects I'm working on

SKILLS

React, Javascript, HTML, CSS, TailwindCSS, SQL, Vercel, Azure, API integrations
